# How to configure a 5250 display
for 27 lines and 132 columns

Example display defined as 24 x 80:

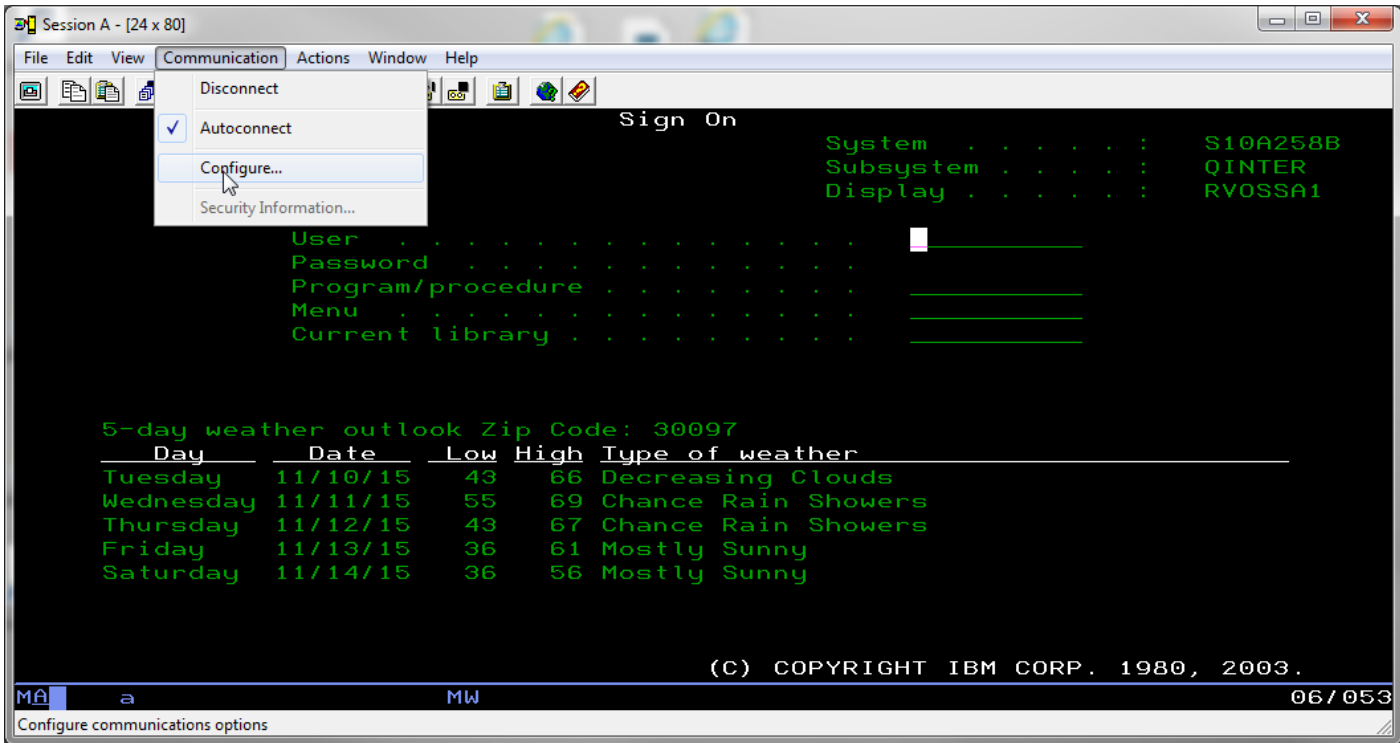

Example same display defined as 27 x 132

Configuring a display for 27 x 132 is very simple to do.
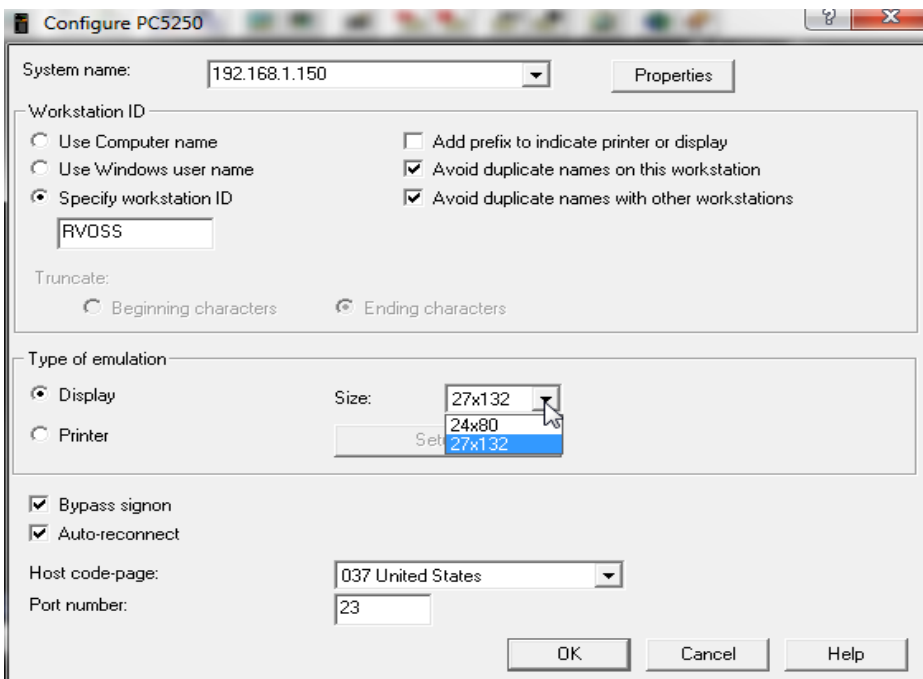

Step 1

On your Signon screen, select Communication>Configure

Step 2
Select Display Size = 27 x 132 then click OK

Note: You may get a message similar to this, click OK

Your display should go blank then redisplay with size of 27 x 132
